

New Year, New Products, New Opportunities

Hirschmann training courses updated

OpenRail. Industrial HiVision. MACH 4000. With this vast range of innovative new products, Hirschmann has reinforced its position as the market leader for Industrial Ethernet hardware and software. And at the same time, we have opened new markets for our partners, and new possibilities for our users.

We have satisfied our customers' demands, and now is your opportunity to exploit this success. The **first English-language training courses** for these products will take place during March in Neckartenzlingen, Germany.
